ADVERTS SCRAPED	WERE TRAINING-COURSE ADS	AI-TITLED JOBS IN BATH	AI-TITLED JOB IN BRISTOL

The honest count. Bath itself has no AI-titled vacancy. The AI work sits in Bristol, thirteen minutes by train, and the one advert that names the job you can actually evidence sits in London.

THE ONE THAT MATCHES THE WORK

Content & AI Strategy Lead (AEO/GEO)

> £80,000–£95,000 plus bonus · London, hybrid · posted 9 October 2026 · via Salt Search, for a global investment business.

The advert asks for content that is “discoverable, authoritative and citable by AI answer engines”, a “Human + AI content strategy”, and brand voice held while AI-assisted production scales. That is the AEO/GEO discipline already in the Twinthos brain, written down as a job description. It is the only advert in the whole sweep that names work you can evidence rather than claim.

The ghost jobs, named

55 of the 245 cards were training courses dressed as vacancies. Reed classifies each one as “Training Course”. Filter to Permanent or Contract and they vanish.

- **IT Career Switch** — “Trainee AI Engineer”, “Data Science Trainee”, “Digital Marketing Trainee”.
- **ITOL Recruit** — the same titles and the same body text.

- **Newto Training** — “AI Data Engineer”.

STUDENT FINANCE

Borrowing at 40

There is no upper age limit. gov.uk states it directly: “There’s no upper age limit for Tuition Fee Loans or grants.” The age rule bites at 60, when the maintenance loan is capped at £4,582 for 2026/27. At 40 you are on the standard figures.

	STARTS BEFORE 1 JAN 2027	STARTS ON/AFTER 1 JAN 2027 (LLE)
Tuition	up to £9,790	£9,790 per 120 credits, £39,160 lifetime
Maintenance, away outside London	up to £10,830	up to £15,415 per course year
One year, maximum	**£20,620**	**£25,205**

- Maintenance is household-income tested. Those figures are ceilings, not offers.
- LLE maintenance needs at least £1,587.50 of tuition entitlement left, and in-person attendance.
- Repayment starts above £25,000 for LLE courses, written off 40 years after the first April due. Interest 4.1%.
- **The blocker is previous study, not age.** “You’ll usually only get student finance if you’re doing your first higher education qualification — even if your previous course was self-funded.”
- No A-levels: Access to Higher Education Diploma on an Advanced Learner Loan, written off once you complete an eligible HE course.

What could not be confirmed

- Closing dates — Reed does not print them on these detail pages. Ask on application.
- The employer behind the AI Adoption Trainer and the AEO/GEO advert is unnamed; both are agency-fronted, so there is nothing to research before applying.
- Whether any will take part-time or freelance. The adverts say permanent, full-time.
