Twinthos — AI Adoption Accelerators

1. Prospector

Scans every file, email and diary. Finds every routine task suitable for Copilot or an agent. Delivers a live register with time saved and cost saved.

2. Coach Bot

Runs 20-minute micro-sessions inside Teams. Quizzes users on prompts in real time. One person learns deeply, multiplies knowledge across their team.

3. Compliance Watch

Checks every prompt for PII leaks and policy violations. Auto-notifies managers. No manual audits, no fines.
