Tyson Mandela

Founder, Twinthos

Bath / Bristol,
UK · twinthos@agentmail.to · twinthos.com · github.com/twinthos

Summary

I run Twinthos, which finds the repeat office work in a business and hands it to AI. I decide what the AI is allowed to do, write its rules and check its work before it goes live. I stay accountable for every job it runs.

Experience

Founder, Twinthos 2026 to present

- Built the company end to end: product, website, offer and sales pipeline.
- Hand-built the first website in HTML, CSS and Git, then directed AI agents to build the rest.

Director, HumanitAI CIC December 2025 to present

- Teach AI safety and digital inclusion across the UK.

Founder, online school 2013 to 2025

- Built an online school with more than 2,000 students, and designed every course in it.
- Made short videos on camera daily, growing organic social content to around 20 million views a month.
- Built recurring-revenue systems and digital products.
- Oxygen therapy and performance work with Novak Djokovic, Anthony Joshua and John Travolta, among others.

Skills

AI adoption and process review, course design and online teaching, plain-English writing, Hermes Agent, HTML, CSS and Git.
