TWINTHOS · TARGET LIST · 21 OCTOBER 2026

114 verified UK firms. 24 worth calling first.

Every name below was checked against a live company page or a published vacancy on 21 October 2026. Eight sectors, one repeated job each, and a named person who owns the cost.

We are not selling a chatbot

- **The Brain.** The client’s rules, pricing, tone and past decisions. It does not reset, and it never invents a memory.
- **The Employee.** One job with a written definition: what goes in, what comes out, what it must never do, when it escalates.
- **The Desk.** It works through the screens they already own. No API, no migration. First job live in about two hours.

The seven jobs that repeat everywhere

THE JOB	WHERE IT SHOWS UP
Chase a document	Medical records, payroll inputs, certificates, DBS, right-to-work, source of funds
Re-key the same data	Invoice → customs entry → carrier portal → customer tracker
Open and close a file	Matter opening, post-completion, claim set-up, deposit registration
Book and rebook	Repair appointments, service rounds, recall lists, interview slots
Assemble the pack	Court bundle, CQC evidence, O&M file, renewal comparison, demands-and-needs
Reconcile and chase money	Timesheet → invoice, insurer remittance, carrier rate card, arrears
Answer “where is it?”	Shipment status, claim progress, case progression

- **6 Apr 2027 — MTD at £30k plus benefit-in-kind payrolling.** ~1.08m new filers; benefit data every run.

What we say in the first email

- **One job, named.** Not “AI for your firm” — “the post-completion sequence”, “the annual service round”, “the payroll input chase”.
- **Measured on their material.** £999 fixed audit, five working days, one job measured on their own files, a working agent shown on their documents.
- **Then deploy.** £2,500 setup and £750 a month for the first workflow; first job live inside two weeks.

BUY	ANNUAL	WHAT IT MUST DO
One UK admin	**£35,000**	1,950 hours, then goes home
Foundation	**£9,000**	One workflow, not a role
Brain + desk	**£60,000**	Replace 1.7 salaries, or add £60k of revenue

Sources, and what we did not do

- **114 companies** across legal, insurance, accountancy, recruitment, property, healthcare, field service and logistics, each checked on its own site or a live vacancy. Register: `audit/target-register.json` in the brain.
- **100 of them** have a named decision-maker with a role and a source URL.
- **No emails, no direct dials.** Names only where the firm publishes them.
- **Everything is filed.** The full register sits in the brain; twinthos.com carries the public version.
- **No client results.** Demos are illustrative; no client has bought this as a paid service yet, and we say so.
- **Excluded on purpose:** firms already shipping their own agents on the same job (Keoghs, Cargo Overseas, Ringley’s PlanetRent), brands that no longer exist (Heat Recruitment, acquired 8 Oct 2026), and anyone above the size we can serve.
