THE HARD TRUTH (From the Data)

Whop has 195,000+ products. The distribution is brutal:

Reality	Number
Products earning $0	173,195 (89%)
Products earning anything	21,805 (11%)
Earn $1,000+/month	3,964
Earn $10,000+/month	961
Median (of earners)	$72/month
Average (of earners)	$2,984/month
Top 5%	Vast majority of all revenue

This is a power law. Either you're in the top 5% or you're not making money. The question is: what are the top 5% doing?

WHAT'S ACTUALLY SELLING – The Top Categories

---

1. Paid Communities & Groups – THE #1 Model

6,021 earning products. Average: $4,463/month.

This is the most common and most reliable model on Whop. Gate a Discord-style community behind a monthly subscription.

What sells:

- Trading groups (stocks, crypto, forex, options)
- Sports picks/betting alerts
- Fitness accountability groups
- Reselling/flips communities
- AI tools & prompts communities
- Marketing/social media growth groups
- Fandoms and hobby groups

Top earners:

- Committed Coaches (fitness): $4.9M/month, 13,750 members
- TTW Inner Circle (trading): $17M/month, 9,000 members
- Team Bull Trading, Scarface Trades: $10K-$100K+/month

Why it works: Recurring revenue. Members stay as long as they get value. The barrier to entry is low – anyone can start a community.

The geometric truth: A community is a recurring revenue machine. 100 members at $50/month = $5,000/month. 500 members at $30/month = $15,000/month. Scale linearly with members.

2. Trading & Signals – The MONEY Niche

Highest revenue category on Whop.

Trading groups, signals, alerts – stocks, crypto, forex, options. This is where the biggest numbers are.

Top earners:

- TTW Inner Circle: $17M/month in trading
- Bravo Six Picks: $551K/month, 50% affiliate commission
- Firm Trading, Six Picks variants

Why it works: People are desperate to make money in markets. They pay premium for signals, alerts, and community access. High-ticket + recurring.

Reality check: You need a track record or strong perceived expertise. This niche has trust issues. But the money is real – if you can deliver or perceived-deliver value.

3. Sports Betting Picks – Follows Trading

Massive on Whop. Sports picks, betting alerts, parlay builders, VIP groups.

Top performers: Bravo Six Picks ($551K/mo), various sports bettingDiscord groups charging $50-$500/month.

Why it works: Sports betting is huge. People pay for picks that beat the spread. Recurring subscriptions.

4. Fitness & Health Coaching – Second Highest

6,593 earning course/coaching products. Average: $3,110/month.

Communities like Committed Coaches ($4.9M/month) prove this works at scale.

What sells:

- Accountability groups
- Transformation programs
- Diet/nutrition coaching
- Workout programs with community
- Weight loss challenges

Why it works: People want results and accountability. Monthly subscription for ongoing support. Coaching + community = powerful combo.

5. Affiliate Marketing – Make Money WITHOUT Creating Anything

30% commission by default. 30,000+ affiliates earning. Recurring on subscriptions.

You don't need a product. You don't need an audience. You just need to share links.

Best affiliate opportunities (by revenue × commission):

- Bravo Six Picks: $551K/mo revenue, 50% commission = $275K/mo potential per 100% of sales
- AI Arbitrage Blueprint: $569K/mo revenue, 30% recurring
- TTW Inner Circle: $678K/mo revenue, 30% recurring
- Any high-ticket trading/sports product with 30-50% recurring commission

Geometric advantage: One referral that stays subscribed = recurring income forever. 10 referrals at $100/month product with 30% commission = $300/month passive.

How to start: Sign up → Affiliates dashboard → browse marketplace → pick product → get link → share it.

6. Software, Bots & AI Tools

2,475 earning products. Average: $3,180/month.

Trading bots, AI tools, automation scripts, SaaS products, indicators.

Why it works: Software scales infinitely. Build once, sell to unlimited users. Recurring subscriptions.

Examples on Whop: Trading bots, AI writing tools, automation scripts, no-code tools, browser extensions.

Geometric truth: Software has the best margin structure. Fixed cost to build, near-zero marginal cost per user. A tool with 100 users at $30/month = $3,000/month. 1,000 users = $30,000/month. Same product.

7. Whop Partners – Refer Businesses, Earn Passive

Up to 30% of Whop's gross profit per referred business. $10M+ earned to date by partners.

You refer a business to Whop. They join and start selling. You earn up to 30% of Whop's profit from them for 6 months (recurring). Plus 1% of their ad spend. Plus second-tier commissions.

Top partners clear 6 figures per referral.

Who to refer: Any business that sells anything – coaches, agencies, software companies, ecommerce brands, creators.

Geometric advantage: One good referral = passive income stream for 6 months. Refer 10 businesses = portfolio of income streams.

8. Blueprints – Build Once, Earn on Every Deploy

Earn 10% of Whop's profit on every sale from businesses that deploy your blueprint.

A blueprint is a complete business template – website, products, pricing, checkout – all pre-built. When someone deploys it, they get a running business. You earn 10% of Whop's profit on their sales.

Available blueprints: Salon, gym, jeweler, martial arts academy, safari outfitter, coaching funnel, creative agency, neobank.

Geometric advantage: Build once. Earn on every copy forever. A blueprint deployed by 100 businesses = 100 streams of 10% commissions.

9. Coaching & 1-on-1 Services – Fastest Cash

263 service products. Average: $17,377/month – HIGHEST revenue type.

Marketing agencies, content services, design, copywriting, consulting, dev services.

Why fastest: You sell expertise directly. No product building. First dollar can come same day. But it trades time for money – not scalable like software or communities.

Geometric truth: Service = linear income (time for money). Community/software = exponential income (build once, scale). Best path: start with service for cash, build community/software for scale.

10. Courses – The Knowledge Economy

3,964 products earn $1,000+/month. Courses are a huge chunk.

Popular topics: Affiliate marketing, social media growth, crypto, sports betting, fitness, reselling, ecommerce, personal finance, AI.

Pricing: Short courses $10-$50. Comprehensive $100-$1,000+. Many use subscriptions with drip content.

Why it works: People pay to learn. Courses scale – create once, sell unlimited. But you need expertise and the ability to package it.

GEOMETRIC ANALYSIS: What Actually Works

The Power Law of Whop Revenue

“‘ Revenue Distribution: Top 5% of products → Vast majority Next 5% → Significant Next 10% → Decent side income Remaining 80% → $0 or near-$0 “‘

Implication: Don't spread yourself thin. Pick ONE approach and go hard. The top 5% earn nearly all the money.

The Recurring Revenue Multiplier

“‘ One-time purchase: $2,047/month average (11,613 products) Subscription: $4,053/month average (10,192 products) ↑ 2x MORE “‘

Geometric lesson: Recurring revenue compounds. A community with 100 members at $50/month = $5,000/month every month. A course sold once = one-time payout. Over 12 months: community = $60,000. Course (if sold 10×/month) = $2,047×12 = $24,564. Community wins.

The Niche Dictates Everything

“‘ Money Niches on Whop (ranked by revenue):

1 Trading/stocks/crypto/forex ← BIGGEST money

2 Sports betting/picks ← Very big

3 Fitness/health/coaching ← Large, proven

4 AI tools & prompts ← Growing fast

5 Marketing/business education ← Big

6 Reselling/flips ← Niche but profitable

7 Crypto communities ← High risk, high reward “‘

Geometric lesson: Pick a money niche. The niche determines your ceiling. A trading community can earn $17M/month. A generic "productivity tips" community will earn $72/month (the median).

The Three Geometric Paths to Money

“‘ PATH A: RECURRING COMMUNITY Niche expertise → Discord-style group → Monthly fee → 100 members × $50 = $5,000/mo → Scale to 500 members = $25,000/mo → Risk: low. Effort: medium. Ceiling: very high.

PATH B: AFFILIATE + CONTENT Pick high-commission Whop product → Build content around it → Share links → 30% recurring per referral → 20 referrals × $100/mo product × 30% = $600/mo passive → Scale content → 100 referrals = $3,000/mo passive → Risk: low. Effort: medium (content). Ceiling: high.

PATH C: BUILD SOFTWARE/TOOL Build tool once → Recurring subscriptions → 100 users × $30/mo = $3,000/mo → 1,000 users × $30/mo = $30,000/mo → Risk: medium-high (build). Effort: high initially. Ceiling: very high. “‘

WHAT DOESN'T WORK (Save Yourself Time)

Idea	Why It Doesn't Work
Generic "make money online" courses	Saturated. Everyone sells this. Median product earns $72/month.
One-time purchases only	Earn 2x less than subscriptions. No recurring revenue.
Broad, unfocused niches	"Self-improvement" is too broad. Specific niche = specific audience = money.
Building without validating	89% of products earn $0. Validate demand first.
Pure philosophy with no product	Philosophy doesn't pay. Build something people pay for.
Ignoring recurring revenue	One-time = 2x less. Always prefer recurring if possible.
